Pleasure Test Series are Full Syllabus Tests on Math which are conducted at O.P. Gupta's Advanced Math Classes.

*Many students didn't attend tests from PTS-11 to PTS-20 due to Pre-boards at their respective schools. (As PTS-11 to PTS-20 were held between November second half to January). So their average scores in PTS dipped.

■ Over the years, we've observed that the Students **who score around 40-50% (or above) in the PTS, they easily manage to score in the 90s in the CBSE Math Exam of XII.**

■ Above list is just an indicative of scores of a few of our students in the PLEASURE TEST SERIES for 2016-17 session in the PTS-01 to PTS-10. Students like **Akshay Poonia** and **Bharat Sharma** improved their scores in PTS-11 to PTS-20 (and hence got scores in the 90s in CBSE).

■ Students like **Vinay Shokeen, Bharat Sharma** cleared **NDA - SSB**. Also **Manoj, Akshay, Vinay, Bharat, Akriti, Shivangi** cleared **IIT-JEE Main** (along with 11 others who got scores in 80s in CBSE Math).

■ Besides, **10 students** got scores in the **80s** in **CBSE Math Exam of XII**. This test series was conducted for a batch of 38 students, out of which 24 got marks above 80% in Math.
